

THE BLIND SHOP

Information Sheet

Day & Night Vertical Blinds

Day & Night Vertical Blinds are a unique shading solution that offers the flow of a curtain with the versatility of vertical blinds.

The unique voile fabric comprises a combination of sheer and opaque sections. When the louvres are open, the fabric provides subtle light diffusion with a view. When the louvres are closed, the fabric provides privacy, security and warmth.

Day & Night Vertical Blinds are ideal for larger windows, bifold doors and sliding doors and can be used to create room dividers in hotel lobbies and larger rooms.

A wand is used to operate the blinds - twist to open or close the louvres, and slide it to push the louvres back to open the blind fully.
